## SOCIETY WILL SEE MOTOR SHOW TODAY

Greatest Attendance of Week Is Expected-Many Celebrities Invited to Attend.

### By HARRY WARD.

Today is "society day" at the autoneebile show and the counter attendsnce of the week is expected. Invitations have been sent to President and Mrs. Wilson, members of the Cabinet, Senators, Congressmen and others comment in official and social circles. n honor of the occasion, Lieutenant Santelmann, leader of the Marine Band, has arranged a special musical program. Many of the booths will be deccented with flowers and palms. Yesterday's attendance was the

st of the week and many sale nade. Some of those who attende show during the afternon and c were Matthew Trimble, jr., Sidney 186 ber, Bert Bentley, William Orme E. G. namel, Samuel Bensinger, John 11. Typer, Mr. and Mrs. W. W. Curtis. and Dr. Prosser.

It has been decided to close the exhibition Saturday night with a motor show dancing party. The show will be officially closed at 5:30, and from then until midnight there will be dancing, with music by the Marine Band.

### Arrange Details.

A committee consisting of Charles W. rington, and F. C. Sibbald is arrangng the details of the affair.

Arthur Foraker, treasurer of the how and one of the big exhibitors, revived many congratulations last night in the feat he accomplished yesterday iternoon in driving a Marmon speed-ter up the incline erected on the east die of Convention Hall for getting the of Convention Hall for getting the into the hall. The incline has a are into the hall. The incline has a live of about sixty-five degrees and oraker's car went up it without routile. Driving into the hall Fortier turned his machine around and irgue it down the incline, much to the length of a big crowd of spectators. That the show is producing conside able business is indicated by the fact that many of the cars on exhibition lear "sold" cards. "The show is giv-ing the automobile business a decided impetus," said T. Oliver Probey, chairman of the show committee. "It has put a snap into business that was lacking, and every exhibitor has expressed himself as being delighted with the results so far achieved."

### Two Sales Made.

Two sales were made yesterday at the stand of W. P. Barnhart & Co. In the morning R. G. Hoff drifted into the booth and selected a six-cylinder Pullman, with electric gearshift. In the afternoon a King roadster was sold to Francis S. Carmody.

E. Lester Jones, Commissioner of Fisheries, has placed an order with the W. L. Smith Company for one of the Detroiter touring cars on exhibi-

### Automobile Show Notes.

Kenneth Simon, of the Haynes Automobile Company, Kokomo, Ind., has arrived at the show and is assisting T. Oliver Probey and Harry Jones in entertaining visitors at the Haynes booth.

The exhibit of King and Pullman, gosolene cars and Standard electrics, of W. P. Barnhart & Co. is always a center of attraction. It is located in booth No. I and the Barnhart brothers, William and Paul, are kept busy showing the various models.

George H, Strout, general sales manager of the Haynes Automobile Company, who has been attending the show several days, left today for Baltimore. He will visit the show in that city for a day and then leave for Chicago, where a big show opens Saturday night.

### FIRST 1915 MODEL TO BE ANNOUNCED

TOURING CAR, EQUIPPED WITH MAGIC MOTOR, WHICH IS ONE OF THE

# OWNERS OF TODAY

Senumes. Bruce Emerson, C. H. War- is a rarity today, although it was quite common up to a few years ago.

It used to be a common sight to see car stalled with some minor trouble, and the driver on his back, with his full kit of tools, trying to make the machine go. An empty gasolene tank, a dead battery, or a dirty spark plug might have been the cause, but he did not know and did not understand.

The manufacturer has made wonder-ul strides in perfecting and simplify-ing the automobile, especially the car if medium size and price. From an expensive luxury enjoyed by few it is now a practical investment for the average man. Not only is it a help to him in his business, but it is the means of providing health, enjoyment, and inexpensive recreation for his whole

family.
The motorist has advanced with the manufacturer, and the average owner today does not expect the impossible from the car, but realizes that, while it is a wonderful piece of machinery, it is

# Famous Apperson Jack Rabbit Cars

### Twenty-first Anniversary

Since 1893, Building the FAMOUS Apperson Jack Rubbit Cars. THE WIZARD OF THE HILLS

With their own hands, 21 years ago, Elmer and Edgar Apperson built America's first automobile, and in all that time no Apperson car has ever worn out, nor have they ever built a dar that developed chronic trouble. They are the only makers who hold such a record. Judge the wonderful car that must come from that wealth of experience, for it is greater than that of any other maker.

And remember this: The Apperson Jack Rabbit is manufactured from hub to hub in Apperson factories. It is not an assembled ear. Think what this means. Absolute mechanical perfection, sureness in groduction, prompt deliveries, and no divided responsibility.
